Air Tech INCORPORATED

THE AUTHORITY IN AIR MOVEMENT, COMFORT, AND CONTROL
ESTABLISHED 1973

MANUFACTURING PARTNERS

AIR DISTRIBUTION

Air distribution solutions focused on delivering precise airflow, effective ventilation, and overall system efficiency. Products include fans, louvers, dampers, terminal units, grilles, registers, diffusers, and specialty air devices designed to support proper air mixing, noise control, and code-compliant ventilation strategies.

APPLIED EQUIPMENT

Engineered HVAC equipment designed to meet complex project requirements and system-level performance goals. Equipment offerings include DOAS units, energy recovery systems, VRF, custom air handlers, packaged roof top units, split systems, computer room units, and specialty systems for critical environments.
