AirTech INCORPORATED

THE AUTHORITY IN AIR MOVEMENT, COMFORT AND CONTROL SINCE 1973

Your deadline doesn't wait, so neither do we.

Same-day answers from the people who know the equipment.

Serving engineers, contractors and owners with more than 40 manufacturers.

HOW WE SUPPORT YOUR PROJECTS

Selections and design support

Equipment selections, sizing, spec language and drawing files, before the design is locked.

Building controls and service

BAS design, programming and service from the same team that supplies the equipment.

Commissioning and service

Startup, commissioning and ongoing equipment service, with real people answering the phone.

WHAT WE REPRESENT

Air Distribution

Fans, louvers, dampers, terminal units, grilles, registers and diffusers.

Applied Equipment

DOAS, energy recovery, VRF, custom air handlers, rooftop and split systems.

Building Automation & Controls

Automation systems, airflow measurement, gas detection and lab controls.

Architectural Products

Louvers, penthouses, screens and custom enclosures.

BIRMINGHAM
15 West Park Circle, Birmingham, AL 35211

HUNTSVILLE
6767 Old Madison Pike Rd, Suite 404, Huntsville, AL 35806

AIR-TECH LINE CARD · 01

Air Distribution

Products that deliver precise airflow, effective ventilation and efficient systems: fans, louvers, dampers, terminal units, grilles, registers, diffusers and specialty air devices.

Greenheck
Fans, dampers, louvers, kitchen ventilation and energy recovery

Modine
Unit heaters and ventilation equipment

Selkirk
Venting, chimney and grease duct systems

Zehnder Rittling
Radiant ceiling panels, fin-tube and hydronic heating

Nordfab Ducting
Clamp-together ducting for dust and fume collection

Santa Fe Dehumidifiers
Commercial dehumidifiers

Milcor
Access doors and roof hatches

Kees
Grilles, registers, diffusers, louvers and security grilles

Spiral Systems, Inc.
Spiral duct and fittings

ATCO Rubber Products
Flexible and insulated flex duct

Sternvent
Dust and mist collectors and cyclones

BlueDuct
Self-insulated HDPE underground duct

Monoxivent
Vehicle exhaust removal systems

Air Performance
Architectural and hurricane louvers

Dixie Metal Products
Spiral duct, fittings and large process exhaust

Specified Controls
Zoning systems,thermostats and dampers

Price
Grilles, registers, diffusers, terminal units and chilled beams

AAF Flanders
Airfilters, filter housings and filtration systems

Marley Engineered Products
Electric unit, baseboard and wall heaters

Antec Controls
Laboratory airflow control and venturi valves

MacroAir
High-volume, low-speed (HVLS) fans

Markel Products Company
Commercial electric heaters

JL Industries
Access doors and panels

Crown Products Company
Round, oval, spiral and rectangular duct

Thermal Corporation
Custom air handlers,fan coils and coils

Prihoda
Fabric airducts and diffusers

Tuff Duct
Pre-insulated exterior ductwork

Hamlin Companies
Spiral and rectangular ductwork

Air Concepts
Long-throw and adjustable outlets for large spaces

Powered Aire
Air curtains

Macurco Gas Detection
Gas detection and ventilation control

AIR-TECH LINE CARD · 02

Applied Equipment

Engineered equipment for complex projects and system-level performance: DOAS, energy recovery, VRF, custom air handlers, packaged rooftop and split systems, and computer room units.

Greenheck
DOAS, energy recovery and makeup air units

Lennox
Packaged rooftop and split systems

AboveAir Technologies
Precision cooling and indoor outdoor-air units

Neptronic
Humidifiers and electric duct heaters

Price
Terminal units, fan coils and chilled beams

Franklin Electric
Variable frequency drives

Air Monitor
Airflow measurement stations

Compu-Aire
Computer room air conditioners

Fujitsu
VRF and ductless systems

IEC International Environmental
Fan coils and blower coils

Thermal Corporation
Custom air handlers and energy recovery

Nailor Industries
VAV and fan-powered terminal units

Modine
DOAS, packaged units and data center cooling

AAF Flanders
Filtration and HEPA systems for critical spaces

Badger Meter
Flow and energy meters

Danfoss
Variable frequency drives

SELECTIONS AND DESIGN SUPPORT

Bring us the tough ones early.

We run selections, check sizing and send spec language and drawing files before the design is locked, and we stay with the equipment through startup.

AIR-TECH LINE CARD · 03

Building Automation & Controls

Integrated controls for visibility, optimization and long-term reliability: building automation, airflow measurement, gas detection, and laboratory and critical environment controls.

KMC Controls
Open-protocol building automation systems

Honeywell
Controls, sensors, valves and actuators

Price
Terminal unit and room controls

Antec Controls
Laboratory and critical environment airflow controls

TrueFit
Airflow measurement for air handlers and rooftop units

Macurco Gas Detection
Gas detection for garages, boiler and mechanical rooms

Franklin Electric
Variable frequency drives

Badger Meter
Flow and energy meters

Air Monitor
Airflow measurement stations and sensors

Neptronic
Actuators, controllers and humidity control

Specified Controls
Zoning systems, thermostats and dampers

Danfoss
Variable frequency drives

CONTROLS FROM THE SAME TEAM

One call covers the equipment and the controls.

BAS design, programming and service come from the same people who supply the equipment, so nothing falls between two vendors.

205.942.7081 · airtech@airtechal.com · airtechal.com

AIR-TECH LINE CARD · 04

Architectural Products

Airside products that balance performance with building design: louvers, penthouses, screens and custom enclosures for weather protection and the facade.

Greenheck
Architectural louvers, penthouses and sunshades

Air Performance
AMCA-certified louvers, sunshades and architectural metal

JL Industries
Fire extinguisher cabinets and access doors

Milcor
Access doors, roof hatches and smoke vents

One call covers everything in this book.

Every line on these pages has the same team behind it, from the first selection to the last punch-list item.

Trusted since 1973

More than 50 years of commercial HVAC projects, and the relationships that come with them.

Equipment and controls together

Selected to work as one system, so fewer problems fall between vendors.

Close to the job

Offices in Birmingham and Huntsville keep our people a short drive from your site.

Let's chat about your next project.
